

3 Tips for Talking with Your Pediatrician

Help your child by making the most out of your next appointment!

1

THINK ABOUT WHAT YOU WANT TO TELL YOUR DOCTOR.

Write down any concerns so you can remember at the appointment.

Know your milestones! This is the [best resource](#) we recommend (including pictures and videos) and it states when to be concerned.

2

YOU ARE THE EXPERT WHEN IT COMES TO YOUR CHILD!

Trust your gut if you think something is wrong.

Ask questions!

3

TIME MATTERS! GET CONNECTED TO RESOURCES AS SOON AS POSSIBLE.

Don't just "wait and see" how your child progresses. Check in with your doctor before your child's next wellness check.

– OR – Get help yourself. You do not need a referral to get started.

Tell them you have concerns about your child's development. They will schedule developmental screenings and assessments to see if your child is eligible for services.

IF YOUR CHILD IS UNDER 3:

IF YOUR CHILD IS OVER 3:
contact your local school district to schedule an evaluation

Remember, **you know your child best.** Be a strong voice and advocate if you are worried.
